

Ellen Edwards

I am the Senior Practice Educator for the Clinical Support Desk, Welsh Ambulance Service. I am an Adult Nurse and I qualified from The University for the West of England in 2003. I have had a varied career, working in many different areas of nursing, including ITU, ED, Paediatric ED and Maternity.

I am a 2021 Welsh Digital Leadership Scholar. I specialise in remote clinical decision making and telephone triage. My time as a scholar has been phenomenal. Developing networks and learning from the leading nurses in Wales has been hugely rewarding. I have developed new skills and gained confidence to lead in my specialty, as well as raising the profile of telephone triage. As an Alumni Champion I am passionate about sharing the benefits of an FNF Scholarship and showing people that it is for all, no matter your grade or specialty!
