

FLORENCE NIGHTINGALE FOUNDATION

Alex Doyle

I am a military trained healthcare professional, who has worked in a variety of clinical and management roles. I applied for the FNF Emerging Leaders scholarship 2 days before the closing date and hardly slept until I'd finished it! I'm always enthused by people who are unashamedly passionate about things and professionally I want to promote healthcare education at all levels. Excellent patient care starts with well trained and inquisitive staff. I hope to act as a role model, developing the skills of others and to work innovatively in both research and practice. The FNF scholarships are uniquely situated to support and promote nursing in all areas and I am keen to get more people involved!
