

Florence Nightingale Foundation Low Carbon Events Policy

In line with our [ESG statement](#), we demonstrate our commitment to sustainable events in a variety of ways, including:

Catering

- Opting for plant-based catering, when available
- Opting for menu choices with minimal packaging (ideally in recyclable or biodegradable containers)
- Reducing plastic water bottle usage by using refillable water jugs

Materials

- Sharing agendas and handouts digitally instead of using printed materials
- Ensuring we print on recycled paper if printing is necessary
- Using reusable signage
- Using reusable name badges
- Providing e-tickets
- Using digital/erasable whiteboards

Travel

- Strongly encouraging delegates to use public transportation
- Encouraging car-sharing

Venue

- Selecting a venue with:
 - Strong transport links and cycling facilities
 - Recycling facilities
 - A commitment to sustainability
